

# Narcotic Overdose

**Warning:**

- **NARCAN** is to be used PRN to improve intrinsic airway patency, ventilation and oxygenation.
- The goal is to restore spontaneous respiration, **NOT** "to wake the patient up."

- Common Narcotics:**
- Fentanyl
  - Codeine
  - Dilaudid
  - Heroin
  - Methadone
  - Lorcet
  - Vicodin
  - Oxycontin
  - Lortab
